

# Orbital 310 Benchtop Centrifuge

The Clements Orbital 310 is designed for clinical and small laboratory centrifugation where convenient analogue speed control and precise digital timing is required. The Orbital 310 is available with either a six place rotor for sealed tube carriers or an eight place rotor for open tube carriers.

proven through performance

- **Functional Controls** For easy and precise operation
- **Accurate** Digital timer for precise timed operations
- **Economical** Provides basic centrifuge functions for standard requirements
- **Aerosol Protection** Aerosol sealed tube carriers (CEN 91505)
- **Safety** Lid interlocked power cut off switch
