

# Pedal Operated Suction Pumps

The Clements Pedal Operated Suction Pump is a portable, manually operated pump with vacuum indication and fluid collection, providing suction where electricity is not available. The Clements Pedal Operated Obstetric Suction System is also available to assist in obstetric deliveries and pharyngeal suction of the mother.

proven through performance

## Safe

- Designed to Australian Standards
- No electrical moving parts
- Shatterproof collection container
- Self sealing bung with overflow protection

## Excellent Performance

- High vacuum capability
- Vacuum storage capability

## Convenient

- Occupies minimal space
- Lightweight and fully portable
- Easily operated by one person
- No electricity or batteries required

## Functional

- No need to continually pump the unit
- Strong construction
- Ideal standby unit

## Reliable

- Minimal number of moving parts
- No perishable components
- No maintenance required
- Can be relied upon to function in an emergency

## Accurate

- Clear and accurate vacuum indication

TECHNICAL SPECIFICATIONS FOR PEDAL OPERATED PUMP RANGE		
Model Catalogue Number	Pedal Operated Suction Pump SUC82010	Pedal Operated Obstetric System SUC82012
Standard Fittings	Gauge, Collection Jar with Self Sealing Bung and Overflow Valve, Suction Tubing, Handpiece	Gauge, Collection Jar with self Sealing Bung and Overflow Valve, Suction Tubing, Set of 3 Obstetric Cups (SUC 80150)
Vacuum Range	Testing to -80 kPa at jar / 0 to -600 mmHg	
Flow Rate	Testing to 32 lpm minimum at jar	
Vacuum Indicator	Analogue gauge, Bourdon Tube type Dual scale graduated in kPa and mmHg	
Indicator Range	0 to -100 kPa graduated 5 kPa 0 to -760 mmHg graduated 20 mmHg	
Pump Type	Oil Free Piston valve with leather seal	
Filter	Disposable 3 micron bacteria filter at inlet	
Manual Requirements	About 20 consecutive strokes to achieve maximum vacuum	
Collection Containers	1 x 2 Litre autoclavable, shatter resistant, polycarbonate jar with self sealing polypropylene bung	
Overflow Protection	Float Valve Mechanism	
Dimensions	Unit: H335mm W185mm D320mm Packed: H460mm W190mm D430mm	
Weight	Unit: 3.8 kg Packed: xx kg	
Standards	AS 2120.1-1992	

SPARES & ACCESSORIES	
SUC80150	Set of 3 Obstetric Cups, 40mm, 50mm and 60mm with Puller Chain and Valve Assembly
SUC80151	40 mm Obstetric Cup c/w with Puller Chain and Valve Assembly
SUC80152	50 mm Obstetric Cup c/w with Puller Chain and Valve Assembly
SUC80153	60 mm Obstetric Cup c/w with Puller Chain and Valve Assembly
SUC80154	Set of 3 Posterior Obstetric Cups Complete with Puller Cord (40mm, 50mm & 60mm)
SUC80297	Yellow Medical Suction Tubing
SUC80301	2 Litre Collection Jar ( Jar Only)
SUC80312	2 Litre Collection Jar Complete with Bung Assembly and Overflow Cut Off Valve
SUC84200033	2 Litre Collection Jar Bung Assembly with Overflow Cut off Valve
SUC80350	Metal Handpiece, Finger Valve and Multi Hole Tip
SUC83203	Elevated Trolley (Trolley Only)

**Select from a range of Tubing, Bung Assemblies, Cannulae and Handpieces.**
